(Collectively, the “Applicants”)

**I. Designation of Main Applicant**

The Applicants hereby name the Main Applicant as the authorized representative of the Applicants with Telefilm Canada (“Telefilm”) for all matters relating to the Project.

The Applicants acknowledge and agree that all communications and notices sent by Telefilm to the Main Applicant will be deemed to have been sent to all of the Applicants.

All of the information, statements, declarations and warranties made or provided by the Main Applicant, its representatives or employees in Telefilm’s electronic portal or in other communications to Telefilm will be binding on all the Applicants.

**II. Performance Ratio Sharing**

**NOTE:** The performance ratio can only be attributed to signatories of Telefilm’s financing agreement that are either applicants, co-applicants or guarantors of the Project. The entities identified as sharing the performance ratio understand and agree that the agreed upon sharing can have an impact throughout Telefilm’s programs<sup>1</sup>. Once determined, the performance ratio sharing cannot be changed, nor assigned to another company even of the same corporate group. Telefilm reserves the right to withdraw the privileges associated with the performance ratio of an entity if the principals of that entity change.

---

<sup>1</sup> For greater clarity: The Applicants as identified in this form are the only entities that can apply to the Development Program on the basis of the performance ratio of the Project (no other related company can substitute for the Applicant for the purposes of applying to the Development Program).

Furthermore, the Applicants understand that the performance ratio sharing may be used to help assess creative, financial and distribution control, including for projects submitted under the Indigenous stream of the Production program or to determine which region the project should be coded to.

The Applicants hereby agree that any performance ratio attained by the Project for the purposes of Telefilm's programs will be attributed as follows among the following entities:

_____	%	Company:	_____
_____	%	Company:	_____
_____	%	Company:	_____
_____	%	Company:	_____
_____	%	Company:	_____
100	%		

The Applicants understand that this performance ratio sharing will be used by Telefilm to calculate each Applicant's performance ratio for Telefilm's Development Program and could be used in the course of other programs in the future.

The Applicants acknowledge and agree that this performance ratio sharing will prevail over any conflicting provisions to this effect and that it will be the only performance ratio sharing used by Telefilm for the purposes of its programs.
