

SHARING OF PERFORMANCE RATIO FORM

Title of Project: _____

Application Number: _____

Performance Ratio Sharing

This form sets out how any performance ratio generated by the Project will be shared amongst its production companies. Sharing of the performance ratio can have an impact throughout Telefilm's programs, including eligibility to the Prequalified stream of the Development program. It can also be used to help assess creative, financial and distribution control, including for projects submitted under the Indigenous stream of the Production program or to determine which region the project should be coded to. Once determined, the performance ratio sharing cannot be changed, nor assigned to another company even of the same corporate group. Telefilm reserves the right to withdraw the privileges associated with the performance ratio of an entity if the principals of that entity change.

IMPORTANT: All companies signing Telefilm's financing agreement must be listed below and must sign this form, whether they are named as applicants, co-applicants, or guarantors in Telefilm's agreement, and even if their assignment of the performance ratio is 0%. No shell companies should receive a portion of the performance ratio (unless they intend to apply for Development funding in the future).

The companies hereby agree that any performance ratio attained by the Project for the purposes of Telefilm's programs will be attributed as per the allocations below:

Companies	Performance Ratio Allocation
_____	_____ %
_____	_____ %
_____	_____ %
_____	_____ %
_____	_____ %
_____	_____ %
_____	_____ %
	Total 100%
